DATE MAILED:

Please find below and/or attached an Office communication concerning this application or proceeding.

Commissioner for Patents

Supplemental Examiner Amendment to correct the Examiner Amendment/Allowance dated 8/8/06 to properly amend claim 10 as correspondingly previously agreed.

SUPPLEMENTAL EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

2. Claim 10 is amended as follows to correct its previous improper amendment resulting from an editing oversight by the examiner, so that it may properly correspond to that originally agreed to during the telephone interview with Charles Kulas on 7/13/06 as referenced in the previous action:

10. (Currently Amended) A method for allocating storage resources in a system including a data storage system controller coupled to a data storage system, the method comprising:

determining workload parameters, wherein the workload parameters include a determined access pattern of the workload;

determining data storage system parameters, wherein the data storage system parameters include a determined current I/O load per data storage unit;

using the parameters to determine if a condition is met; and

determining a configuration of the data storage system by writing the data in a power managed organizational scheme if the condition is met and by writing the data in a non-power managed organizational scheme if the condition is not met.

Conclusion

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul W. Schlie whose telephone number is 571-272-6765. The examiner can normally be reached on Mon-Thu 8:00-6:00.

Art Unit: 2186

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Kim can be reached on 517-272-4182. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
